

Good afternoon, attached are photos of the pool shed at our home in Truro which your company did an amazing job with!! Thank You! We were wondering if someone could visit with us again to discuss a small job to install an insert for our hot tub spill over.

We are very happy with the performance of the canvas and how it has protected the outside bar area. We look forward to the weather that allows us to un-zip the cover and open up for summer fun!! Thanks!
